

INDUSTRIAL *elegance*

Strong designs with a refined twist.

Create a home that speaks to the construction of your designs as well as the materials used, like rich brown leather, raw woods, and dark iron. But introduce them as furnishings that feel both light and refined. The clean lines of a dining chair, sophisticated silhouette of a tufted sofa, and the soft glow of an industrial chandelier are elegant and graceful, and unique features like marquee signs, delicate iron bed frames, and wheeled coffee tables never fail to impress guests who stop by for a visit. Ash wood tones and smooth surfaces help keep everything feel polished and gentle, while gray rugs and white accents brighten the space. Embrace the look of industrial designs, and let the beauty of their strength shine in your modern home.

What's Inside?

We believe in helping you tell a story with your designs. Our curators put together collections of hand-picked furniture and décor, inspired by anything from architecture to famous films, and provide you with everything you need to bring that look into your home.

Curated by

Dot & Bo

Inspired design for modern living.
